

1/4" Drive 6 Piece Shallow 6 Point Fractional Impact Socket Set (1/4" to 9/16")

106IMTM

Features and Benefits

- Flank Drive® wrenching system grips the fastener on the flanks/flats which delivers 15 to 20% more turning power.
- Impact sockets are heat-treated to a low hardness range compared to chrome sockets so that under heavy, continuous use, the impact socket will withstand the impact blows and wear rather than break.
- Square drive side hole works with ball or pin type retention.
- The broach depth of our impact sockets will start to thread the nut onto the stud. Competitive sockets have a deeper hex where the user needs to start the nut by hand.

See page 2 for Individual Socket Stock Numbers, Dimension Drawing and Dimensions

WARNINGS

-  •Wear safety goggles. (User and bystanders)
-  •Read additional safety precautions on pages 594 to 597 in product catalog CAT1100.

PLEASE NOTE: 106IMTM socket set includes the PAKTY292 magnetic socket tray
