

New style TQFR adjustable click-type wrench design now in 3/8" drive! Better grip, more ratchet gear teeth and reduced swing arc improve performance  
3/8" Adjustable Click-Type Torque Wrenches, Flex Head TQ Series

**TQFR100C**  
**TQFR50C**

### Features and Benefits

- Bi-mold composite grip for improved ergonomics. Provides comfort and minimizes heat/cold transmission to user's hand.
- Features a reliable 36 tooth, flex head (15 degree) ratchet with a 10 degree swing arc
- Easy-to-read dial face and Nm conversion table
- Snap-on sealed ratchet head and sealed neck keeps dirt and debris out for longer tool life

TQFR100C – 20-100 ft. lb.

TQFR50C – 120-600 in. lb.

### Applications

- General automotive use, engine work, tire/rims and equipment

See page 2 for more Features and Benefits, Specifications and Warnings

CE – Not Required

Country of Origin – United States

# TQFR100C & TQFR50C

## More Features and Benefits

- Thumb screw adjustment; quickly adjust to desired torque (faster than micrometer style torque wrenches) and thumb screw guard prevents accidental adjustment
- Split beam measuring element provides accurate, reliable readings and eliminates the heavy coil spring used in conventional click-type wrenches
- Includes a blow molded case for storage

### WARNINGS

•Wear safety goggles. (User and bystanders)

•Do not exceed rated torque.

•Do not used to break fasteners loose.

•Periodic recalibration is necessary to maintain accuracy.

•Read additional safety precautions in product catalog CAT1100 on pages 594 to 597.
