

Diamond Tip Screwdrivers Offer Excellent Fastener Grip and Reduced Stripping

“Now, Diamonds Are Everyone’s Best Friend”

5 Piece Diamond Tip Phillips® Screwdriver Set

SGDDP50BR
Set

Features and Benefits

- Diamond particles are embedded in a base metal and provide excellent fastener engagement and minimize fastener stripping.
- Diamond particles are extremely hard for long-lasting performance and minimal wear.
- Unique hex blade allows use of a wrench at any position for additional leverage and obstruction clearance.
- Black diamond tip provides contrast when turning bright/plated fasteners.
- Instinct® handle provides maximum turning power and greater comfort.

Applications

- Intended for use with Phillips fasteners.
- Suitable environments include general automotive service, use with softer metal fasteners, marine/wet environments, etc.

See page 2 and 3 for more features and benefits, more images, set components, optional accessories, specifications and warnings.

Country of Origin – Handle Made in USA
Blade Made in Czech Republic
Screwdriver Assembled in USA

CE – Not required

SGDDP50BR Set

SGDDP63IRBR Screwdriver shown

More Features and Benefits

- Blades are designed to be replaceable.
- Due to their hex profile, blades are laser etched with tip size and length for easy identification.
- Easier to “start” fasteners; diamond particles provide “grip” and hold fasteners when starting.
