

# Integrated Diagnostics Re-imagined, Re-engineered, Reborn

**EEMS328**

MODIS™ Ultra Integrated Scanner, Scope, Expert Information

## Features and Benefits

- Integrated software suite with scan tool, lab scope, graphing meter, and expert information makes it easy to verify faults
- Superfast boot up in only 5 seconds; Get diagnostic results in only 30 seconds
- Easy one-touch navigation using big 8 inch color touch screen or keypad operation
- OEM-specific scanner coverage for over 40 domestic, Asian and (optional) European makes
- Exclusive Fast-Track® Troubleshooter tips save time and avoid comebacks
- Exclusive *Fast-Track* Guided Component Tests verify component failures with test procedures, automatic meter setup, connector diagrams and a waveform library
- Exclusive steady-charge battery technology automatically charges from vehicle connector

See page 2-4 for additional features and benefits

- WARNING** UL - Yes
- Wear safety goggles. (User and bystanders) ULC – Yes
- Read additional safety warnings on pages W1 to W4 in Catalog 1200 CE – Yes English Only
- Country of Origin: USA

## EEMS328

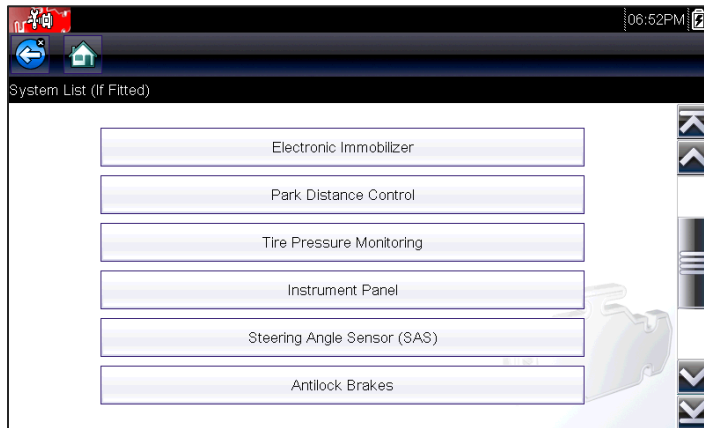

- A single keyless data cable for OBD-II applications saves connection time
  - Unique “cause & effect” diagnostics – use powerful functional tests while viewing live data parameters on-screen
  - Full scanner capabilities include coverage for vehicle-specific codes, live data, functional tests, relearns, adaptations
  - Save your diagnostic results, codes, data, screen images on internal Micro SD card
  - PC connectivity via USB port. Save, share, view, print files via ShopStream Connect™ application available at no charge
  - Exclusive data graphing with glitch capture to find elusive intermittent faults
- OEM-specific coverage for 1980-newer US vehicles, 1983-newer Asian vehicles, and optional 1992-newer European vehicles
  - Coverage for dozens of the most popular systems — engine, transmission, airbag, ABS, body, steering, suspension, TPMS, hybrid power, lighting, instrument, park assist, climate and many more
  - Digital/graphing meter and high-speed 2-channel lab scope, features:
    - 6 million samples/sec
    - 3MHz bandwidth
    - Preset and custom meter settings
    - Peak detect, cursors and glitch capture
    - help find problems other scopes miss
  - Dimensions: 11.2" x 2" x 6"
  - Weight: 2.6 lbs.

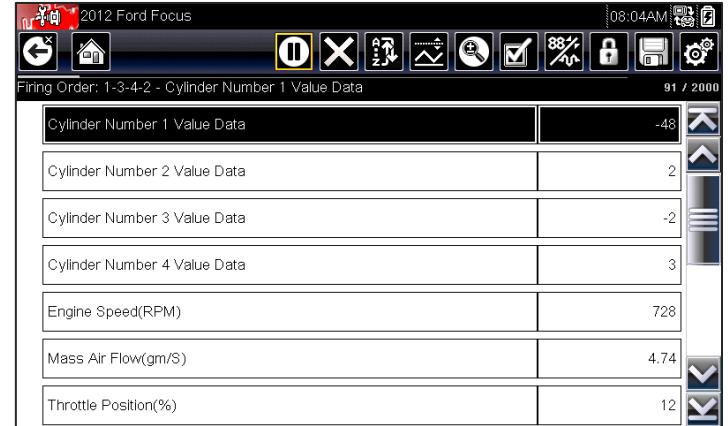

# EEMS328

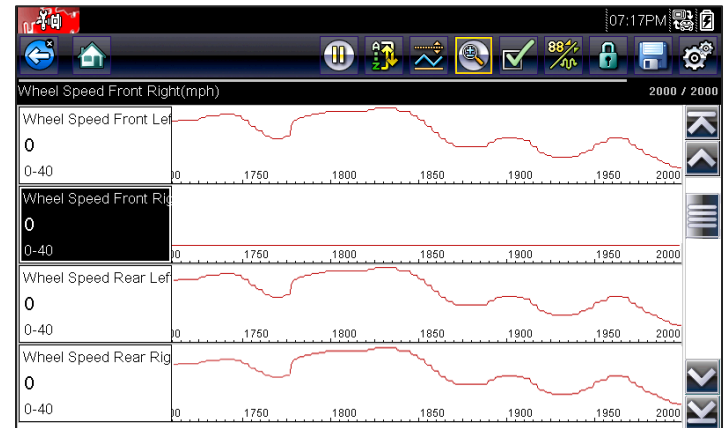

Six express icons take you directly to all major diagnostic functions. ID vehicles with just a few taps of your finger, or use automatic vehicle ID on supported vehicles.

Don't settle for generic coverage. Get more coverage on the systems technicians see most, including newer technologies like steering angle sensor, TPMS, hybrid power and park assist

Complete the job faster with automated tests like cylinder contribution, service reset, caliper rewind, brake bleed, evap, throttle initialization, tire calibration, VIN read/write

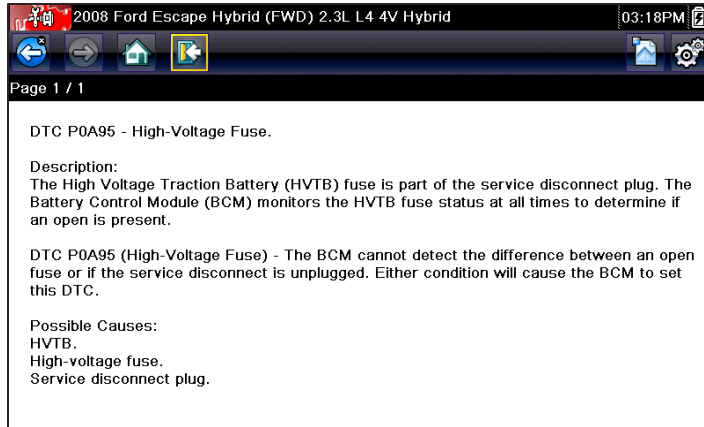

Consistent navigation for all OEMs. Digital & graphing display plus powerful scan tool functions to make the job easier: custom data lists, zoom view, min/max capture, triggers

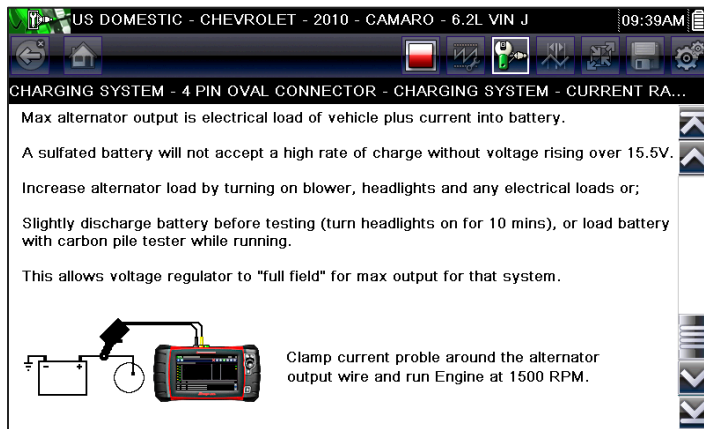

# EEMS328

Built-in Fast-Track® Troubleshooter information, leverages real-world experience. Get instant access to millions of code tips, symptom tips and repair timesavers

Fast-Track® Guided Component Tests in the tool, include guided test procedures, automatic meter set-up, connection tips, connector diagrams, waveform library, test values

- **Included:**
  - MODIS® Ultra multifunction diagnostic tool
  - Keyless universal OBD-II adapter
  - 2 shielded scope leads, probes, clips
  - 110VAC power adapter
  - High energy lithium-ion battery pack
  - Two custom-fit organizer trays
- **Optional Accessories:**
  - EESP328E European vehicle software
  - EAK0301B07B European vehicle adapters
  - EAK0301B10A Complete OBD-I adapter kit (17 adapters plus jumper lead set)
  - EETA308D Precision low amp probe
  - EEPV302AL Low pressure transducers
  - EEPV302AT Medium pressure transducers
  - EEPV302AH High pressure transducers
  - EAC0111L76A3 Screen protectors
  - EAK0312L19A Grab-n-go tote case
  - EAX0068L10A 9 ft Extended OBD-II data cable
  - MODISUFOAM3 Organizers for 3-series carts
  - MODISUFOAM4 Organizers for 4-series carts
  - EAZ0079L11A 8'x2' MODIS Ultra shop banner
  - Plus a wide range of Ignition adapters
