

Fixed Shade Welding Helmets Taken to a New Xtreme

Extreme Face Protection

EFPBONEHEDB
EFPJURASSIC
EFPOLEGLORY

Features and Benefits

- Made of a new nylon material
- Helmet is much more flexible to get into tighter spaces
- Additional 1-1/4" of material on top of helmet for more coverage
- Cooler for the user as it will not heat up as much as ABS version
- Lighter weight and much more resistant to heat

EFPBONEHEDB White Skull

EFPJURASSIC Dinosaur

EFPOLEGLORY Flag

CE – English only

Country of origin: China

EFPBONEHEDB EFPJURASSIC EFPOLEGLORY

WARNING

- The welding helmet lens is breakable and does not provide complete protection from flying particles, severe impact hazards and/or corrosive liquids.

Wear ANSI approved safety goggles.

Flying particles can cause eye or other bodily injuries.

Welding without a darkened welding lens causes ultraviolet rays to burn the eyes.

Read additional safety warnings on pages W1 to W4 in Catalog 1200
