

# New Specialty Tool for Mack<sup>®</sup> and Volvo<sup>®</sup> Trucks

S6314

1/2" drive 14mm 6pt Impact Socket

## Features and Benefits

- Manufactured from special alloy steel, precision forged and heat treated for optimum strength and durability
- Flank Drive<sup>®</sup> grips fastener on the flanks/flats increasing torque by 15-20% and prevents fastener from rounding and increases the life of the socket
- Socket overall length is 3-1/4"

### **WARNINGS**

Sockets and accessories can break if used with impact accessories.

*Broken sockets and accessories can cause injury.*

Wear safety goggles (User and Bystander).

Read additional safety warnings on pages W1 to W4 in Catalog 1200

CE – Not required

Country of origin: USA

# S6314

## Applications

- For removing and installing the camshaft cap bolts on Mack® and Volvo® trucks with the MP8 series engine
- Deeper broach depth is critical to the application to accommodate the longer threads found on the camshaft cap bolts.
