

Electronic Screwdriver Sets

Now made with electrostatic dissipative (ESD) safe material that protects against the transfer of static charges

**SGDE70ESD
SGDET70ESD
SGDEH70ESD
SGDEL40ESD**

Features and Benefits

- Important when working around sensitive electronic components that can be damaged by static charges
- Both the black grip and red plastic barrel have conductive additives to ensure that the tool safely dissipates electrostatic charges
- Rotating handle mechanism ideal for precise, detailed electronics work
- Blades manufactured to exacting tolerances from special heat-treated alloy steel
- Blade tip finish is industrial black
- All screwdrivers will have an ESD mark on the tool

CE – Not Required

Available sets and individual dimensions on page 2 and 3

Country of origin: Spain

SGDE_ESD

WARNING

- Screwdrivers can break if used as a prybar, chisel or punch

Wear safety goggles (User and Bystander). Do not use a screwdriver as a prybar, chisel, or punch.

Broken screwdriver can cause injury

- Plastic screwdriver handles do not provide electrical insulation

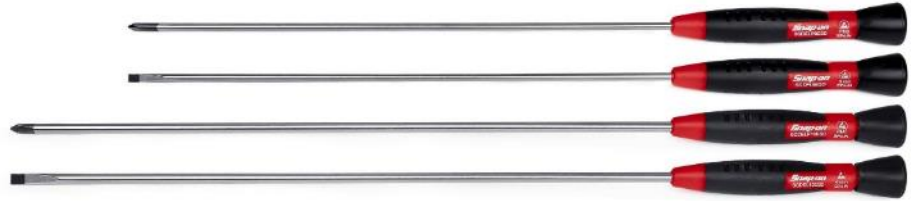

Do not use a screwdriver on or near live electrical circuits.

Electrical shock can cause injury. Read additional safety warnings on pages W1 to W4 in Catalog 1300
