

ORDER: **MTG2500BASIC**

July 21, 2003

## Basic **COLOR GRAPHING** Scanner

with **NEW**Version-Two Operating System

The "BASIC" does not include software cartridges. It's like buying a PC with only the operating system. This allows the user to select the software that fits their specific needs.

### Version-Two Operating System

- Allows you to save, store, replay & graph data for all vehicle parameters.
- Live data parameters can be displayed in text or graph form by pressing the Graphing Button.
- Display both the graph & actual values, side-by-side.
- The trigger feature allows you to preset a value for any vehicle data parameter. When the value is reached, the graph automatically pauses, giving you vehicle data before, during & after the vehicle fault. No need to watch the display to capture intermittent faults.
- Four color graphing display offers greater visibility in all lighting conditions.
- Increased graphing display value with ability to display user's choice of any two or three data parameters in graph format

### Familiar Features

- Exclusive ability to **COLOR graph live and movie data** on all vehicles covered by Snap-on's Domestic, European and Asian Import Primary Cartridges as early as 1980
- Full color display of static or live data at the push of the **new graphing button**
- **Freeze frame graphing** for quick easy review of information over time ... the perfect road test
- **Large high-contrast COLOR screen** for easy data viewing in either graph or text mode
- **Rechargeable Quick ID battery pack** built into the unit
- Supports all existing Domestic, Asian Import & European Scanner cartridges including the full line of Snap-on driveability and specialty Fast-Track Troubleshooters

### MTG2500BASIC includes:

- MTG2500 Graphing Scanner Body
- Cigarette Light Power Cable
- Battery Power Cable
- Data Cable
- Carrying Case

**MTG2500BASIC**  
**Color Graphing Scanner**  
(cartridges not included)
